Prospective Bidders:

**EXPRESSION OF INTEREST AND PREQUALIFICATION
PROJECT L-388, EVAPORATOR/CANTON STREET WATER UPGRADE
HANFORD SITE, RICHLAND, WASHINGTON
SMALL BUSINESS SET-ASIDE**

Fluor Hanford, Inc. (FH), Richland, Washington expects to issue a Request for Proposal (RFP) for subject Work (firm fixed price) on or about July 17, 2002, with proposals to be received on or about August 7, 2002. A mandatory site tour will be conducted on or about July 24, 2002. General Contractors and their lower tier Contractors are invited to participate.

RFP SCHEDULES/OPENING DATES ARE SUBJECT TO CHANGE

The work site is located the 200 East Area of the Hanford Site and is located approximately 23 road miles northwest of Richland, Washington.

This construction project will install approximately 1,650 feet of 12-inch PVC water Line. In addition, various service connections will be made to tie existing customers over to the new potable water distribution line. The following itemization of the work is intended to be broad in scope, identifying major work elements only.

- Install approximately 1,650 feet of 12-inch C-900 PVC water line. Line to be installed with a minimum of 4 feet of cover.
- Hand excavate approximately twenty (20) locations to identify underground utilities.
- Provide traffic control and construction survey.
- Install four service connections including valves & fittings. Each service connection will be 30 feet long.
- Install six concrete encasements, including three located under railroad tracks.
- Install two 12-inch gate valves and two 4-inch gate valves; all with post indicator valves.
- Reconstruct approximately 12,000 square feet of asphalt road, including restriping.
- Perform hydro-test, flushing, and chlorination on the new pipeline. All flushwater must be pumped into a tanker and hauled away to an approved disposal area (within 5 miles).
- Stabilize the disturbed areas with crushed rock or by hydro-seeding.

The requested construction completion time frame is ninety (90) calendar days after receipt of Notice-to-Proceed. Issuance of the Notice to Proceed is anticipated on or about August 21, 2003 with estimated construction completion of November 21, 2003.

Interested offerors are invited to submit an expression of interest letter to include a response to the following pre-qualification criteria, to the address stated herein to be received no later than July 15, 2003.

1. List of similar construction projects completed within the last five (5) years.
2. Workman's Compensation Risk Ratings for last five (5) years.
3. OSHA 200 log year-end summaries for last five (5) years.
4. Certification of financial resources and bonding of minimum of \$1,000,000.

Drug screening for all employees will be required. Safety and Security orientation may also be required.

One RFP package including specifications and drawings will be provided to prospective prime Offerors who submit an expression of interest letter and can meet all of the pre-qualification criteria stated above. Submit expression of interest letter and pre-qualification criteria to the attention of John D. Phillips at the address stated below.
